**Care and maintenance**

**Cleaning the seat**

The seat may be spot cleaned using a damp sponge with a mild soap or detergent. Baby wipes work perfectly. Allow to dry completely before folding or storing away.

If the canopy, accessories or seat become wrinkled or creased after the buggy has been folded for a long period of time, simply iron the fabric on the reverse side. Be sure to place a damp cloth between the iron and the fabric.

In some climates the covers and trims may be affected by mould and mildew. To help prevent this from occurring, store the product in a well ventilated area and refrain from folding.

**Cleaning the chassis**

Brush off excess dirt and remove sand and salt after visiting the beach; wipe clean with a moist cloth and mild cleaning agent.

**Lubrication of moving parts**

Periodically lubricate the wheels, the hinges and other sliding parts using light oil or silicon spray. Do not use heavy oil as this will attract dust and grit which tends to clog and damage moving parts.

1. Follow these steps regularly in order to keep the buggy in perfect condition.
